

Stew Crew Volunteering Update: September 2020

WingSpan Seed Collection: Pick Prairie

A partnership with the state project Wingspan, volunteers collected seeds from Purple and Yellow Coneflower, Bee Balm, Golden Alexander and Foxglove Beard Tongue on the Pick Prairie. All seeds collected will be returned to Wisconsin sites to help increase the quality, quantity, and connectivity of pollinator habitat.

Clean-up: Pick Prairie

Volunteers gave the benches a good scrubbing and cleared overgrowth from the trails. Our favorite bench is the one under the large canopied Oak Tree. Look for it at the CLCF Open House on October 10th from 9am-11am.

Trail and Tree Maintenance: Rudorf Farm, Thoma Prairie, Thoma Preserve, and Genthe Preserve

Everything keeps growing – and sometimes falling!! Volunteers cleared trails from overgrowth, new buckthorn, and trees that had fallen. We invite you to take a stroll on one of our beautiful trails.
