

Stew Crew Volunteering Update: November 2020

Wingspan Seed Collection: Pick Prairie

It was a beautiful November and perfect conditions to complete the seed collection at Pick Prairie. Our partners at project Wingspan were very grateful for the work of our volunteers. Here is what they said. "A big THANK YOU for all of your support this year. We are at the end of our seed-collecting season for 2020 and volunteers are getting some of the last of the collected seeds shipped off to Mason State Nursery for cleaning and safe storage, soon to be sent back out to our recipients for plant material awards. Our Wisconsin seed collecting teams did an amazing job this year -- many thanks to you and your organization for helping to make that happen! We couldn't do it without supporters like you!"

Project Wingspan teams will continue on collecting again in 2021, so I can only hope you'll be on board to continue your support next year as well. I'll be in touch during these more quiet winter months to plan ahead for the 2021 collection season. For now, please know how grateful we are for your continued support and participation."

Trail and Tree Maintenance: Thoma Preserve and Thoma Prairie

Enjoy the trails created by volunteers this year on the Thoma Preserve and Thoma Prairie. The trails offer beautiful hardwood forests combined with sprawling prairies with walking paths connecting the two parcels. Dogs love it, too! As winter approaches, it's also a wonderful time to enjoy the trails. See how a small dusting of snow enhances the beauty of the trails.
